

I have decided to downsize my quilting business and sell my Gammill Classic I/S Turbo.

This is a very well cared for machine. You can purchase this quilter with or without the IntelliQuilter computer system. Pricing starts at \$11,500. for the stitch-regulated I/S Turbo or you can choose to keep the IntelliQuilter as well for \$16,500. I have several patterns and books for the freehanded included with this machine in addition to loads of bobbins and needles.

You can see my Gammill Classic at:

<http://good-times.webshots.com/album/568555373TzRQow>

Terms are buyer pick-up and cash or check. Checks will have to clear before pick-up, of course. One day lesson if you need it. Serious offers will be considered.

You will need to call in advance to test-drive as yes, we are using it daily until it sells.
